Technologies

PROFILE

Frontend-focused Bachelor of Computer Applications (BCA) graduate with hands-on experience building responsive, interactive interfaces using HTML5, CSS3, and JavaScript (ES6). Completed a dedicated Frontend Web Development course and independently built and shipped multiple projects, including an expense tracker and a student management system. Currently expanding into backend fundamentals with PHP, MySQL, and XAMPP. Reliable, detail-oriented, and motivated to contribute as a Frontend Developer Intern in a fast-paced UAE tech environment.

PROJECTS

Expense Tracker

github.com/rehu-bit/expense-tracker

- Built a web app to record, categorize, and track daily expenses with a clean, responsive interface.
- Used JavaScript and Local Storage to persist entries and calculate running totals in real time.

Student Management System

github.com/rehu-bit/student-management

- Developed a system to add, update, and manage student records through an organized, user-friendly interface.
- Structured the front end with HTML, CSS, and JavaScript, focused on clear data handling and usability.
